

# Economic Impacts Generated by the Port of Baltimore

## ➤ 40,040 jobs are generated via Port Activity

- 14,630 direct jobs are generated by cargo and vessel activities
- 10,940 indirect jobs, i.e. jobs supported by the business purchases of the employers who create the direct jobs.
- 14,470 induced jobs, i.e. jobs supported by the local purchases of goods and services by direct employees.

## ➤ Additionally, approximately 68,300 other jobs in Maryland are related to activities at the Port

- Related jobs include those with Maryland companies that chose to import and export their cargo through the Port of Baltimore. These companies benefit from having a healthy port nearby in Baltimore to assist in their logistics, but they have the option to use other ports.

## ➤ Overall, there are over 108,000 jobs linked to the Port, combining direct, induced, indirect, and related jobs.

## ➤ The Port of Baltimore is a major source of personal and business revenues in the State of Maryland:

\$3.0 billion in personal wage and salary income  
\$1.7 billion in business revenues  
\$1.0 billion in local purchases  
\$304 million in state, county and municipal tax revenues

- The average Port job (\$55,370\*) pays 7% better than the average Maryland salary (\$51,740\*).
- The Port provides employment for a wide range of skill sets.
