Guidelines for the Packaging, Handling and Disposal of Asbestos Materials at the Cecil County Central Landfill, Elkton, Maryland

Asbestos waste generated in Cecil County may be disposed of at the Central Landfill when the following requirements are met:

Definition:

“Friable asbestos material” means any material that contains more than 1% asbestos by weight and that can be crumbled, pulverized, or reduced to powder, when dry, by hand pressure.”

If you are unsure if the asbestos you are handling meets the friable criteria contact:

Maryland Department of Environment
1-800-633-6101 ext. 3200
ask for Asbestos Control
Follow their instructions on asbestos.

You Will:

- 1) Notify the Department of Public Works, Division of Solid Waste Management in writing 1 week prior to disposal.
 - a. The amount of asbestos to be disposed of
 - b. Where it is coming from within the county
 - c. When it will be delivered to the Landfill (Date and approximate Time)
 - d. The name of the company hauling the material
- 2) You will call 410-996-6275 two days prior to ensure the material can be accepted and that notification was received.
- 3) You or Your Hauler will have 2 completed copies of the Cecil County Asbestos Handling Paper Work and a copy of the letter notifying Cecil County of your intent to dispose of asbestos.
 - a. One copy will be kept at the Landfill
 - b. The other needs to be sent to the State regulatory agency by the person or contractor completing the project.

The Material will be disposed of as follows:

- 1) Follow all instructions of the Landfill personnel
 - a. Weigh Master will direct you where to go
 - b. Operators of the cell will let you know where to deposit the material
- 2) You will unload the material in a manner that prevents emission of fibers into the air

Failure to follow any of these rules may result in our pursuit of any and all remedies by the county and state.
