Project Description/Status:

The current Paramedic Station #2 proposed location is located in leased space along Route 40 between North East and Elkton. This project will construct a new paramedic station along the Route 40 corridor in the vicinity of Charlestown to replace the leased space the current paramedic station utilizes and in a better location given projected future growth, call volumes, and response times. The paramedic station will include vehicle bays, office, bunk, and storage space. Water, sewer, and communications infrastructure will be extended to the site. Project is currently in land acquisitions and design phase
